

## LIST OF CONTENTS

VOLUME 28, NUMBER 1

1990

### *Contents*

#### *Regular Articles*

**H. Fritz Stoeckli**

- 1 Microporous carbons and their characterization: The present state of the art

**Anthony A. Lizzio,  
Hong Jiang, and  
Ljubisa R. Radovic**

- 7 On the kinetics of carbon (char) gasification: Reconciling models with experiments

**Youichi Nakayama,  
Fusami Soeda, and  
Akira Ishitani**

- 21 XPS study of the carbon fiber matrix interface

**H.-U. Foersterling**

- 27 Investigations of the adsorption of palladium on carbonaceous adsorbents modified with dimethylglyoxime—I. The adsorption of dimethylglyoxime on selected carbonaceous adsorbents

**G. Sirokmán,  
Á. Mastalir,  
Á. Molnár,  
M. Bartók,  
Z. Schay, and  
L. Guczi**

- 35 Structure and catalytic activity of copper, nickel, and platinum graphimets prepared from graphite intercalation compounds

**M. Nardin,  
H. Balard, and  
E. Papirer**

- 43 Surface characteristics of commercial carbon fibres determined by inverse gas chromatography

**Michio Inagaki,  
Norio Iwashita, and  
Eiji Kouno**

- 49 Potential change with intercalation of sulfuric acid into graphite by chemical oxidation

**K. Lafdi,  
S. Bonnamy, and  
A. Oberlin**

- 57 TEM studies of coal tars: Crude tar and its insoluble fractions

**A. M. Mastral,  
B. Rubio,  
L. Membrado, and  
F. J. Fañanás**

- 65 Coal conversion into char: A study of the initial steps

**N. D. Bhaskar,  
C. M. Kahla, and  
L. R. Martin**

- 71 Absorption of cesium by polycrystalline graphite-sticking coefficient studies

<b>Godfried M. K. Abotsi and Alan W. Scaroni</b>	79 Reaction of carbons with ammonia: Effects on the surface charge and molybdenum adsorption
<b>A. N. Chuvyrov, Y. A. Lebedev, and V. M. Cornilov</b>	85 The optical properties of carbonaceous mesophase
<b>M. A. Ferro-García, F. Carrasco-Marín, J. Rivera-Utrilla, E. Utrera-Hidalgo, and C. Moreno-Castilla</b>	91 The use of activated carbon columns for the removal of ortho-phosphate ions from aqueous solutions
<b>Denys A. Wickens</b>	97 A generalization of the slit-model of pores in microporous carbons
<b>M. Huttepain and A. Oberlin</b>	103 Microtexture of nongraphitizing carbons and TEM studies of some activated samples
<b>P. Ehrburger, J. Dentzer, J. Lahaye, P. Dziedzinił, and R. Fangeat</b>	113 Thermal behavior of chromium trioxide deposited on carbon
<b>H. Shioyama, K. Tatsumi, R. Fujii, and Y. Mizutani</b>	119 Electrochemical preparation of the graphite bi-intercalation compound with $\text{H}_2\text{SO}_4$ and $\text{FeCl}_3$
<b>H. Weisshaus, S. Kenig, E. Kastner, and A. Siegmann</b>	125 Morphology development during processing of carbon—carbon composites
<b>J. Lahaye, F. Louys, and P. Ehrburger</b>	137 The reactivity of carbon—carbon composites
<b>Yositaka Sato, Takuma Kitano, Michio Inagaki, and Mototsugu Sakai</b>	143 Viscous flow of carbon black dispersed pitches: The dependence on temperature and carbon black concentration
<b>Masatoshi Futakawa, Kenji Kikuchik, Yasushi Muto, and Heki Shibata</b>	149 Impact bending fatigue and impact response behavior of a nuclear-grade graphite beam
<b>B. T. Kelly, P. Schofield, and R. G. Brown</b>	155 The effect of high final heat treatment temperatures on irradiation damage in polycrystalline graphite at a temperature of 450°C
<b>I. Ioka and S. Yoda</b>	159 Changes in mechanical properties of graphites parallel and perpendicular to compressive prestress

<b>M. Shioya and A. Takaku</b>	165 Disorder in the layer stacking in carbon fibers
<b>R. K. Agarwal, K. A. G. Amankwah, and J. A. Schwarz</b>	169 Analysis of adsorption entropies of high pressure gas adsorption data on activated carbon
<b>S. K. Verma and P. L. Walker, Jr.</b>	175 Alteration of molecular sieving properties of microporous carbons by heat treatment and carbon gasification
<b>Yoshiyuki Nishiyama, Tetsuya Haga, Osamu Tamura, and Naonori Sonehara</b>	185 A kinetic feature of catalytic gasification of carbons—activation of nickel and iron catalysts during gasification
<b>Isoo Mochida, Shu-Ming Zeng, Yozo Korai, and Hiroshi Toshima</b>	193 The introduction of a skin-core structure in mesophase pitch fibers by oxidative stabilization
<b>Masaya Kodama, Noriko Shimizu, Takayasu Fujiura, Kunio Esumi, Kenjiro Meguro, and Hidemasa Honda</b>	199 Preparation and characterization of cation-exchanger using meso-carbon microbeads prepared by emulsion method
<b>Patrice Lucas and André Marchand</b>	207 Pyrolytic carbon deposition from methane: An analytical approach to the chemical process
<b>C. Sellitti, J. L. Koenig, and H. Ishida</b>	221 Surface characterization of graphitized carbon fibers by attenuated total reflection Fourier transform infrared spectroscopy
<i>Letters to the Editor</i>	
<b>M. M. Ross and V. R. Deitz</b>	229 Thermal desorption/tandem mass spectrometry of whetlerite adsorbates
<b>R. H. Misho and N. A. Bakr</b>	231 The transport properties of battery carbon
<b>E. A. Heintz</b>	233 The measurement of the coefficient of thermal expansion of graphite artefacts
<b>J. L. White and P. M. Sheaffer</b>	235 Effect of oxidation stabilization on carbonization yield
<b>X. Bourrat, E. J. Roche, and J. G. Lavin</b>	236 Lattice imaging of disclinations in carbon fibers
<b>L. E. Jones and P. A. Thrower</b>	239 The influence of structure on substitutional doping: SIMS analysis of boron doped pyrolytic graphites

<b>V. K. Matta, R. B. Mathur, O. P. Bahl, and K. C. Nagpal</b>	241 Crystallinity of PAN precursors
<b>M. Jaroniec, X. Lu, R. Madey, and J. Choma</b>	243 Comparative studies of the overall adsorption isotherm associated with Dubinin-Astakhov equation
<b>C. Decker, A. Eckhardt, and P. Ehrburger</b>	246 Structure of laser-carbonized polymers
<b>D. O. Cooney</b>	248 A quantitative method for assessing filter effectiveness in the filtration of powdered activated carbon suspensions
<b>A. Birenzvige, G. K. Knoss, and P. N. Krishnan</b>	249 Ammonia release from whetlerite upon exposure to cyanide gases
<b>A. Charlier, D. Fristot, S. Doyen, M. F. Charlier, and L. Lang</b>	251 Atomic and graphite intercalation compounds exchange parameters
<b>L. B. Ebert and J. C. Scanlon</b>	253 Does chromium trioxide form an intercalation compound with graphite at 200°C?
<b>B. T. Kelly</b>	255 The thermal expansion coefficients of graphite crystals at low temperatures
	257 Editorial
	257 Erratum
	259 Carbon Calendar
I New Patents and Published Patent Applications from the United States and Over 30 Countries	
VII Software Survey Section	

VOLUME 28, NUMBERS 2/3

1990

*Contents**Regular Articles*

<b>P. L. Walker, Jr.</b>	261 Carbon: An old but new material revisited
<b>Manfred Born, Alfred Seichter, and Sabine Starke</b>	281 Characterization of baking behaviour of carbonaceous materials by dilatation investigations

<b>W. Kowbel and C. H. Shan</b>	287 The mechanism of fiber-matrix interactions in carbon-carbon composites
<b>Gabriele Heydecke and F. Beck</b>	301 A parametric study of the carbon black slurry electrode
<b>Isao Mochida, Kiyoyuki Shimizu, Yozo Korai, Hiroyuki Otsuka, Yukio Sakai, and Susumu Fujiyama</b>	311 Preparation of mesophase pitch from aromatic hydrocarbons by the aid of HF/BF <sub>3</sub>
<b>C. Valenzuela Calahorro, A. Macias Garcia, A. Bernalte Garcia, and V. Gomez Serrano</b>	321 Study of sulfur introduction in activated carbon
<b>J. Ayache, A. Oberlin, and M. Inagaki</b>	337 Mechanism of carbonization under pressure, Part I: Influence of aromaticity (polyethylene and anthracene)
<b>J. Ayache, A. Oberlin, and M. Inagaki</b>	353 Mechanism of carbonization under pressure, Part II: Influence of impurities
<b>Victor R. Deitz and Joseph A. Rehrmann</b>	363 The cumulative chemisorption of cyanogen chloride on a carbon-supported catalyst (whetlerite)
<b>J. M. Solar, C. A. Leon y Leon, K. Osseo-Asare, and L.R. Radovic</b>	369 On the importance of the electrokinetic properties of carbons for their use as catalyst supports
<b>G. S. Bhat, F. L. Cook, A. S. Abhiraman, and L. H. Peebles, Jr.</b>	377 New aspects in the stabilization of acrylic fibers for carbon fibers
<b>Victor R. Deitz and Joseph A. Rehrmann</b>	387 The cumulative chemisorption of hydrogen cyanide and cyanogen on a carbon-supported catalyst (whetlerite)
<b>E. Papirer and D. Y. Wu</b>	393 Study of the behavior and conformation of linear hydrocarbon chains grafted on the surface of carbon black
<b>Ismail M. K. Ismail</b>	401 Oxidation of rayon fabrics in atomic and molecular oxygen
<b>A. R. Chughtai, W. F. Welch, and D. M. Smith</b>	411 A spectroscopic and gravimetric study of the soot-NO <sub>2</sub> /N <sub>2</sub> O <sub>4</sub> reaction at various temperatures
<b>Ismail M. K. Ismail</b>	423 Adsorption of nitrogen and krypton at 77 K on silicas and graphitized carbons
<b>X. Bourrat, E. J. Roche, and J. G. Lavin</b>	435 Structure of mesophase pitch fibers

*Letters to the Editor*

<b>S. Hamamda and V. Popov</b>	447	Le coefficient de dilatation thermique du graphite pyrolytique mesure dans l'intervalle de température 4–30 K
<b>F. Ehrburger-Dolle and M. Tence</b>	448	Determination of the fractal dimension of carbon black aggregates
	452	Carbon Calendar
	I	New Patents and Published Patent Applications from the United States and Over 30 Countries
	V	Software Survey Section

VOLUME 28, NUMBER 4

1990

*Contents**Regular Articles*

<b>Klaus J. Hüttinger</b>	453	A method for the determination of active sites and true activation energies in carbon gasification: (I) Theoretical treatment
<b>Klaus J. Hüttinger and Julia S. Nill</b>	457	A method for the determination of active sites and true activation energies in carbon gasification: (II) Experimental results
<b>C. Salinas-Martinez de Lecea, A. Linares-Solano, and M. A. Vannice</b>	467	Carbon black and activated carbon as supports in catalysts prepared from $\text{Fe}_3(\text{CO})_{12}$ and $\text{Mn}_2(\text{CO})_{10}$ clusters
<b>Ichiro Tanahashi, Akihiko Yoshida, and Atsushi Nishino</b>	477	Activated carbon fiber sheets as polarizable electrodes of electric double layer capacitors
<b>Naohiro Sonobe, Takashi Kyotani, and Akira Tomita</b>	483	Carbonization of polyfurfuryl alcohol and polyvinyl acetate between the lamellae of montmorillonite
<b>Ikuo Ioka, Shinichi Yoda, and Takashi Konishi</b>	489	Acoustic emission for polycrystalline graphite under compressive loading
<b>H.-U. Foersterling and K.-H. Hallmeier</b>	497	Investigations of the adsorption of palladium on carbonaceous adsorbents modified with dimethylglyoxime II: The adsorption of palladium on an activated carbon in its unmodified form and modified with dimethylglyoxime
<b>H.-U. Foersterling, M. Beer, and K. H. Hallmeier</b>	503	Investigations of the adsorption of palladium on carbonaceous adsorbents modified with dimethylglyoxime, III the adsorption of palladium of a lignite in its unmodified form and modified with dimethylglyoxime

<b>C. Jones and E. Sammann</b>	509 The effect of low power plasmas on carbon fibre surfaces
<b>C. Jones and E. Sammann</b>	515 The effect of low power plasmas on carbon fibre surfaces: A comparison between low and high modulus pan based fibres with pitch based carbon fibres
<b>C. T. Ho and D. D. L. Chung</b>	521 Carbon fibers brominated by electrochemical intercalation
<b>A. S. Politou, C. Morterra, and M. J. D. Low</b>	529 Infrared studies of carbons. XII the formation of chars from a polycarbonate
<b>Akira Yoshida, Yoshihiro Hishiyama, and Michio Inagaki</b>	539 Exfoliation of vapor-grown graphite fibers as studied by scanning electron microscope
<b>M. A. Ferro-García, J. Rivera-Utrilla, I. Bautista-Toledo, and M. D. Mingorance</b>	545 Removal of lead from water by activated carbons
<b>Osamu Ito, Tomoki Kakuta, and Masashi Iino</b>	553 Optical absorption spectra of heat treated decacylene during mesophase formation
<b>Michio Inagaki, Tsutomu Ibuki, Koji Kobayashi, and Mototsugu Sakai</b>	559 Interaction between pitch and phenol resin during pressure carbonization
<b>Paolo Davini</b>	565 Adsorption and desorption of SO <sub>2</sub> on active carbon: The effect of surface basic groups
<b>V. Serin, R. Fourmeaux, Y. Kihn, J. Sevely, and M. Guigon</b>	573 Nitrogen distribution in high tensile strength carbon fibres
<b>P. McAllister, J. F. Hendricks, and E. E. Wolf</b>	579 The infiltration of carbon fiber felts and composites by pyrolytic carbon deposition from propylene
<b>Gerald Rellick</b>	589 Densification efficiency of carbon-carbon composites
	<i>Letters to the Editor</i>
<b>K. Tatsumi, H. Shioyama, I. Souma, and F. Fujii</b>	595 In situ XRD observations of the formation of the graphite bi-intercalation compound with BiCl <sub>3</sub> and HClO <sub>4</sub>
	597 Carbon Calendar
	I Software Survey Section

- B. Jungblut and  
E. Hoinkis**
- 599 The role of Pt-loading, thermal treatment and exposure to air on the acid-base behavior of a Pt/Carbon black catalyst
- 611 Effect of concentration of surface acidic functional groups on electric double-layer properties of activated carbon fibers
- 617 TEM studies of coal tars effects of stresses (filtration and decantation)
- 631 TEM studies of coal tars influence of distillation process at increasing temperature
- 641 The characterization of ultra-hard carbon films produced from pre-processed carbon powder in a hybrid physical vapor deposition system
- 657 The nondestructive test method of chemical reactivity of impregnated carbon bed
- 661 Discussion of the kinetics of the carbon-steam reaction catalyzed by iron and a new mechanistic proposal
- 669 Density of intercalated graphite fibers
- 675 Effect of  $\text{HNO}_3$  treatment on the surface acidity of activated carbons
- 683 Activated carbon adsorbent for PSA driers
- 691 The diffusion of lithium in graphitic matrix A3-3 at low concentrations and high temperatures

<b>R. A. Greinke</b>	701	Quantitative influence of dealkylation and polymerization reactions on mesophase formation
<b>L. H. Peebles, Jr., P. Peyser, A. W. Snow, and W. C. Peters</b>	707	On the exotherm of polyacrylonitrile: Pyrolysis of the homopolymer under inert conditions
<b>Peter B. Pollock</b>	717	Tensile failure in 2-D carbon-carbon composites

*Letters to the Editor*

<b>D. B. Murphy and R. W. Carroll</b>	733	Platinum-catalyzed formation of filamentous carbon from acetylene
<b>M. Jaroniec, X. Lu, R. Madey, and J. Choma</b>	734	An isotherm equation for solute adsorption from dilute solutions on heterogeneous solids
<b>M. Jaroniec, X. Lu, R. Madey, and J. Choma</b>	737	Comparison of the equilibrium adsorption isotherms measured by the dynamic and static methods for hydrocarbons on microporous activated carbons
<b>K. Lafdi, S. Bonnamy A. Oberlin, and J. L. Saint Romain</b>	739	Transmission electron microscopy of coal tar pitches obtained by soaking then distillation

743	Papers presented at the Workshop on the Science and Technology of Diamond Films 21-24 May 1990 at the Quail Hollow Conference Center, Concord, Ohio
810	Workshop Author and Key Word Index

<b>C. T. Ho and D. D. L. Chung</b>	815 Inhibition of the oxidation of carbon-carbon composites by bromination
<b>C. T. Ho and D. D. L. Chung</b>	825 Kinetics of intercalate desorption from carbon fibers intercalated with bromine
<b>C. T. Ho and D. D. L. Chung</b>	831 Bromination of graphitic pitch-based carbon fibers
<b>S. G. Chatterjee and C. Tien</b>	839 Retention of toxic gases by modified carbon in fixed beds
<b>J. Goworek, J. Kaźmierczak, and A. Świątkowski</b>	849 Adsorption from binary and ternary mixtures on activated carbons containing different amounts of chemically bonded oxygen
<b>A. S. Politou, C. Morterra, and M. J. D. Low</b>	855 Infrared studies of carbons. XIII: The oxidation of polycarbonate chars
<b>P. Pattabiraman, N. M. Rodriguez, B. Z. Jang, and R. T. K. Baker</b>	867 A study of the interaction of atomic oxygen with various carbonaceous materials
<b>I. Ioka, S. Yoda, and T. Konishi</b>	879 Behavior of acoustic emission caused by microfracture in polycrystalline graphites
<b>J. M. Ranish and P. L. Walker, Jr.</b>	887 Models for roughening of graphite during its catalyzed gasification
<b>J. B. Aladekomo and R. H. Bragg</b>	897 Structural transformations induced in graphite by grinding: analysis of 002 x-ray diffraction line profiles
<i>Letters to the Editor</i>	
<b>H. F. Stoeckli, P. Rebstein, and L. Ballerini</b>	907 On the assessment of microporosity in active carbons, a comparison of theoretical and experimental data
<b>J. Assouik and P. Lagrange</b>	910 Sur l'insertion des alliages potassium-arsenic dans le graphite
<b>L. B. Ebert, J. C. Scanlon, A. R. Garcia, C. F. Pictroski, and L. A. Gebhard</b>	912 On the identity of soot
	915 Errata
	916 Carbon Calendar
